NOW AND IN THE FUTURE

ABOUT US

PT. Merko Projekt Logistics is a specialized logistics company focused on sectors like Marine, Oil and Gas, Mining, Industrial, Construction, and Infrastructure projects as well as General Freight Forwarding. Our key services include:

- Project logistics with strong risk and compliance management to ensure smooth and legal operations.
- Freight forwarding for all types of transportation (air, sea, road, rail) and cargo sizes.
- Expertise in handling Heavy Lift, Out of Gauge (OOG), and Special Cargo, ensuring safe and efficient transport.
- Consulting services, offering technical and commercial advice tailored to your needs.
- A team of experienced and compliance-conscious employees to ensure top-quality service.
- End-to-end project shipment supervision, from planning to final delivery.

At PT. Merko Projekt Logistics, we provide reliable, efficient, and safe logistics solutions, allowing you to focus on your business while we handle your transportation needs.

OUR VISION

To be the leading Project Logistics Management partner for the Mining, Oil and Gas, Power & Energy (Renewables), Industrial, Construction, and Infrastructure sectors.

OUR MISSION

Efficient, client- and solution-focused, providing the best service with the most cost-effective project logistics management. Responsive to meeting client needs.

Prioritizing safety by implementing environmentally responsible working practices. Respecting and supporting local cultures and traditions in every region where we operate.

PT. MERKO PROJEKT LOGISTICS

EFFICIENT, CLIENT- AND SOLUTION- FOCUSED

QUALITY, HEALTH, SAFETY, SECURITY & ENVIRONMENT

We are committed to health and safety for our employees, customers, contractors, and the environment. We foster strong alliances with air and ocean carriers, vendors, suppliers, subcontractors, and clients to implement security measures and programs that ensure the integrity and safety of the supply chain.

PROJECT MANAGEMENT

Effective collaboration with customers and suppliers to ensure all work is planned to meet project constraints and environments.

- Collaborate with customers and suppliers to plan work for project requirements.
- Set up communication channels and contact protocols.
- Confirm delivery status and shipping specs with suppliers.
- Develop a detailed shipping plan and identify Heavy Lift, OOG, Special Cargo.
- Secure necessary permits and licenses.
- Establish Operational SOPs and documentation matrix.
- Issue regular operational and status reports (daily, weekly).

CODE OF CONDUCT

We conduct our business in full compliance with all applicable laws, rules, and regulations. We are respectful of and committed to upholding local cultural and ethnic customs.
